Blast Appeal

A single blast not only sanitises but also leaves a pleasant fresh scent. Formulated to remain suspended in the air for many hours, eliminating odours.

Features a high pressure blast nozzle and actuator system which is designed to freshen up any space quickly & effectively.

It is a dry formulation thus making it beneficial for use as a fabric refresher and also for refreshing trainers, shoes, furniture and carpets.

The Blast Can Collection

Point of Sale

Slick and impactful

Blast Can POS educates, informs and entices shoppers to try something new.

The Blast Can Counter Top unit is perfect for smaller stores who are short on space – place next to the till and you will significantly increase impulse sales.

The Blast Can Free Standing Unit is stylish and impactful, perfect for larger stores – place on the end of an aisle close to the entrance or till and see those sales fly.
